

DIAMOND VALUE EMULSION

Diamond Value Emulsion is a decorative paint based on a PVA copolymer binder.

It is a fine quality emulsion within its category with good coverage. It provides a superior finish at an affordable cost.

Diamond Value Series Emulsion is suitable for interior use on plaster, concrete, gypsum, bricks work, asbestos etc. A wide range of shades makes this water-based emulsion paint a good choice for painting walls.

It offers enriched whiteness and concealing compared to regular economy emulsion and distempers.

- This product is for interior use where washability is not required.
- More durable than ordinary distemper.
- Value for money.
- Water-based emulsion paint.
